<i>Foreword</i>	<i>v</i>
<i>Preface</i>	<i>vii</i>
1. Research: The Meaning, Approaches and Typology	1
<i>1.1 Research – 1.2 Research Process – 1.3 Research Problem – 1.4 Research Design – 1.5 Case Study Research – 1.6 Hypothesis – 1.7 Levels of Measurement – 1.8 Assessment of Reliability and Validity – References.</i>	
2. Analytical Methods for Research Data	33
<i>2.1 Parametric Methods/Tests – 2.2 Non Parametric Methods – References.</i>	
3. Sampling Methods	57
<i>3.1 Basic Concepts of Sampling – 3.2 Types of Sampling Methods – References.</i>	
4. Advanced Statistical Tools for Research Data Analysis	73
<i>4.1 Basic Research Question – 4.2 Multiple Techniques – References.</i>	
5. Non-linear Programming for Research Data	99
<i>5.1 Basics of Non-linear Programming – 5.2 Application of Non-linear Programming – References.</i>	

6. Measurement and Scaling Techniques Measurement in Research	109
<i>Measurement Scales – Sources of Error in Measurement – Technique of Developing Measurement Tools – Scale Construction Techniques.</i>	
7. Participatory Approaches in Community Based Observation (CBD) and Researches	129
<i>7.1 People's Participation in Observation, Analysis and Planning for Rural Development – 7.2 Indigenous Criteria of Wealth and Poverty – 7.3 Comparative Analysis: Paradigms, Principles, Objectives and Evaluation – 7.4 The Principles Governing Questionnaire Survey and PRA – 7.5 Criteria for Trustworthiness of Data – Concluding Remarks – Summary – Theme – Significance – Nature and Scope of Inquiry – Purpose – Kind of Queries and Probing – Forms of Output – For Whom is the Output? – Time/Manpower/ Fund Required – Designing a Pan for Inquiry – References.</i>	
8. Reference Writing	147
<i>8.1 Introduction – 8.2 Basic Rules of Reference List – 8.3 Importance of Referencing – 8.4 Various Types of Referencing – 8.5 Reference List – 8.6 Structure/template of Different Article – 8.7. What is an Abstract? – 8.8 Plagiarism – References.</i>	
9. Statistical Software for Data Analysis	169
<i>9.1 Common Statistical Software and their Application – 9.2 Features of Statistical Software – 9.3 Common Statistical Tools and their Analysis by SPSS – References.</i>	
10. Grounded Theory	183
<i>Introduction – Key Definitions – Defining Features – Data Collection – Report Writing and Rhetorical Structure – A Review of Study: Qualitative Tussles in Undertaking a Grounded Theory Study Purpose – Conclusions and Recommendations – References.</i>	
Index	195
